

The Feelings Inspectors would like the adults at Bramble Brae to be nice to everyone and listen to all children.

Adults should support and encourage children and build a child's confidence through giving them attention and help when they need it. The adults should be role models by being kind and loving.

Draw and decorate a teacher in the middle of your poster. This will be Bramble Brae's Teacher Yes Yes Yes. In their classroom, every child is healthy, happy, safe and able to do their best. The Feeling Inspectors have shared their ideas for Teacher Yes Yes Yes, can you add to this?

In a speech bubble

Adults in our school should say:

- Well done!
- You are doing a great job
- What's the matter?
- If you make a mistake: 'Good try. Try again and I'll help you'
- Encourage children with 'You can do it' and 'You are almost finished'
- Try your best
- You are worth a lot
- Hi and good morning
- Do you feel safe?
- See you tomorrow

Now write down your ideas. If an adult in your school is really doing their best for children, what do they say to children?

In a giant love heart

Adults in our school should make children feel:

- Safe
- Educated
- Excited to learn
- Happy when they go home, because the teacher is really nice to all children
- Worthwhile
- Loved?

Now write down your ideas. If an adult in your school is really doing their best for children, how do they make children feel?

In a scroll letter

Write a message to an adult in Bramble Brae – what one important message should they hear, to ensure all children are happy, healthy, safe and doing their best at our school?

In a thought bubble

Adults in our school should know:

- About any problems the child has at home, so they can help them.
- That all children have rights. "If they don't know rights, they aren't a good teacher or PSA."
- Each child in their classroom, so that if the child isn't themselves, they know.
- About Minecraft because everyone plays it.
- How to keep the environment and children healthy
- How to support children's mental health
- If a child is hurt inside
- How to be kind and loving
- That all the children in their classroom are good students.

They are all favourites of the teacher!

Now write down your ideas. If an adult in your school is really doing their best for children, what do they know?

In a giant thumbs up hand

Adults in our school should be good at:

- Having a chat if something is worrying you
- Sitting down and talk to us to see why we are angry, instead of punishing us. Next time the teacher would know what is wrong.
- Building things with you
- Finding each child's skill level and giving them work that is right for them. Giving out harder work if you find it too easy.
- Planning trips like rock climbing
- Singing
- Everything in P.E. Maybe they can do a flip or trampolining.
- Being kind and helpful
- At explaining stuff
- Playing
- Helping children with their feelings

Now write down your ideas. If an adult in your school is really doing their best for children, what are they good at?
