| Festivals and sculptures | I would like to have festivals on Falkland Estate were people can learn new things so kids can have fun and older people can meet new friends. I would like sculptures in the woods like faces in the trees so when people walk past them it makes them smile! I would also like to see more accessibility for people with disabilities |
| The Reading Corner | I think it would be a nice idea to have a reading area in the estate because of how much I like reading and nature. There could be any coloured bean bags. The book selves join together to be protected from rain and theft. The hammock is for chilling while reading. Fairy lights are there so you could see when it is dark. There's a mini space in the back of the bookshelves for beanbags. The little grey carpet can also fit in with the beanbags. The books on the bookshelves have different types of books that you can use while there. The fairy lights are also solar powered. > There has been also the idea for a book swap shelf in the woods. |
| Tree carving | Carving animals on trees. I like it because you get fox. |
| Place to relax | This is a lovely place to relax and sleep or read. You can also hear the birds' lovely songs and chirps. It is also a fantastic place to relax in the summer and you can sleep there overnight! You can look at the lovely sunset and beautiful stars. |
| Climbing wall plus | I thought of this idea because I like to be off the ground and in nature. I made a climbing wall because I like to climb, a ladder for a fast entrance and a waterslide for a fun exit. | Secret Grotto | I have made a secret grotto because I want people in wheelchairs to have a nice place to relax. The trees are wobbly and bumpy because nobody is perfect. I made this because if you are sad you can come |

| | <p>and relax here while seeing nature. It's a great place to explore in and there is 2 obstacle courses one for disabilities and one for the rest of people. In this secret grotto there is a TV with nature shows and a place for bird watching with binoculars if you need them. Then there is a couch with leaf cushions, tree stumps to sit on and nature wallpaper. I want people to care for this space and treat it well. Please do not do pillow fights, don't change the channel, no throwing stuff around like the stumps and the cushions. Don't unplug the TV, don't smash the windows. Hope you have a good time.</p> |
| Jungle gym | It's a jungle gym. You can play music. It's for everyone. Also, teenagers. You climb the ladder and jump through the chimney to a bouncy castle. It has lights. |

| Guitar strings between trees | These are my guitar strings. They are attached to two different trees. They are in the deep dark woods so to use them you just need to find a normal stick lying around the floor. |
| Clarinets in trees | These are my super cool clarinets. They are placed in holes in the trees for anyone to take |
| Willow walkway | My willow walkway idea is created out of willow and fairy lights at night. It's a beautiful sight because it is lit up. This walkway can be in the estate and will wind round and light it up creating a magical experiences. The floor is made out of cutup dead wood. |
| 3 treehouses | 3 treehouses on 2 trees with a bridge going across to the other with a slide that goes down to a platform and another slide going down. |
| Pipe/ Tube lodge pods to stay in | <ol style="list-style-type: none"> 1. The big log you see is a wooden pipe/ tube lodge people could stay in. It is not too big and not too small to stay in. Disabled can use it. 2. The pod house you see is another place for people to stay in. It is a bit smaller than the pipe house. Disabled can use it. |

| Stream | I am thinking that we could put a stream in a path. |
| Dry slope | It's a dry slope for skiing and other snow sport. |
| Zipline Park | This is a selection of ladders, ziplines and walkways and treehouses. You go up the ladder along the walkway down the zipline. Up the ladder across tow walkways up a ladder along a zipline up a ladder on a zipline down a ladder, drop, down two ziplines across a walkway down a ladder and you are done. If you are wondering about the little curls at the ziplines they are safety hooks (because it is quite high up). |
