

**Learning and teaching:** what we need from all adults at Manor Park Primary

Welcome us into school every day with a big hello, cool handshake, dance, hug or high five

Get to know us – spend time with children at Soft Start, doing activities we like or talking to us about our favourite colour. This makes us feel safe

**Stay positive and keep calm**

If a child is bullying someone or is angry it might be because they feel bad. Help by listening to us, asking what is wrong and giving us space if we have a storm in our head

**Make a shout-free classroom**

We learn when we play. Give us more time to play

When you encourage children, it makes us want to do even better. It makes us feel happy when you say 'good work' and 'you're doing well'

**We like learning outside, it makes us feel energised**

Celebrate our mistakes because we learn and the next time we will get it correct

If the classroom feels like OUR classroom it helps us learn. Let us have our say in how it looks and feels

We all learn differently. Let children learn at their own pace and their own level. Take time and explain in different ways so we all understand

**Make school fun and enjoyable. We love playing games and laughing. This makes us happy**
