The six children were in the classroom reading. Suddenly they all got distracted!

I want to do P.E.!

I want to be with my friends from my old school.

I can't focus!

What are you doing at the weekend?

I can't stop thinking about my family...

There's too much noise!

The book ended up on the floor. No one was paying attention anymore. The teacher came in...

**What
do you
think
you are
doing?!**

The children were stuck inside at lunchtime. While the children were doing the writing their teacher gave them, they each began to think about what happened.

There's a lot going on in class so it's easy to get distracted.

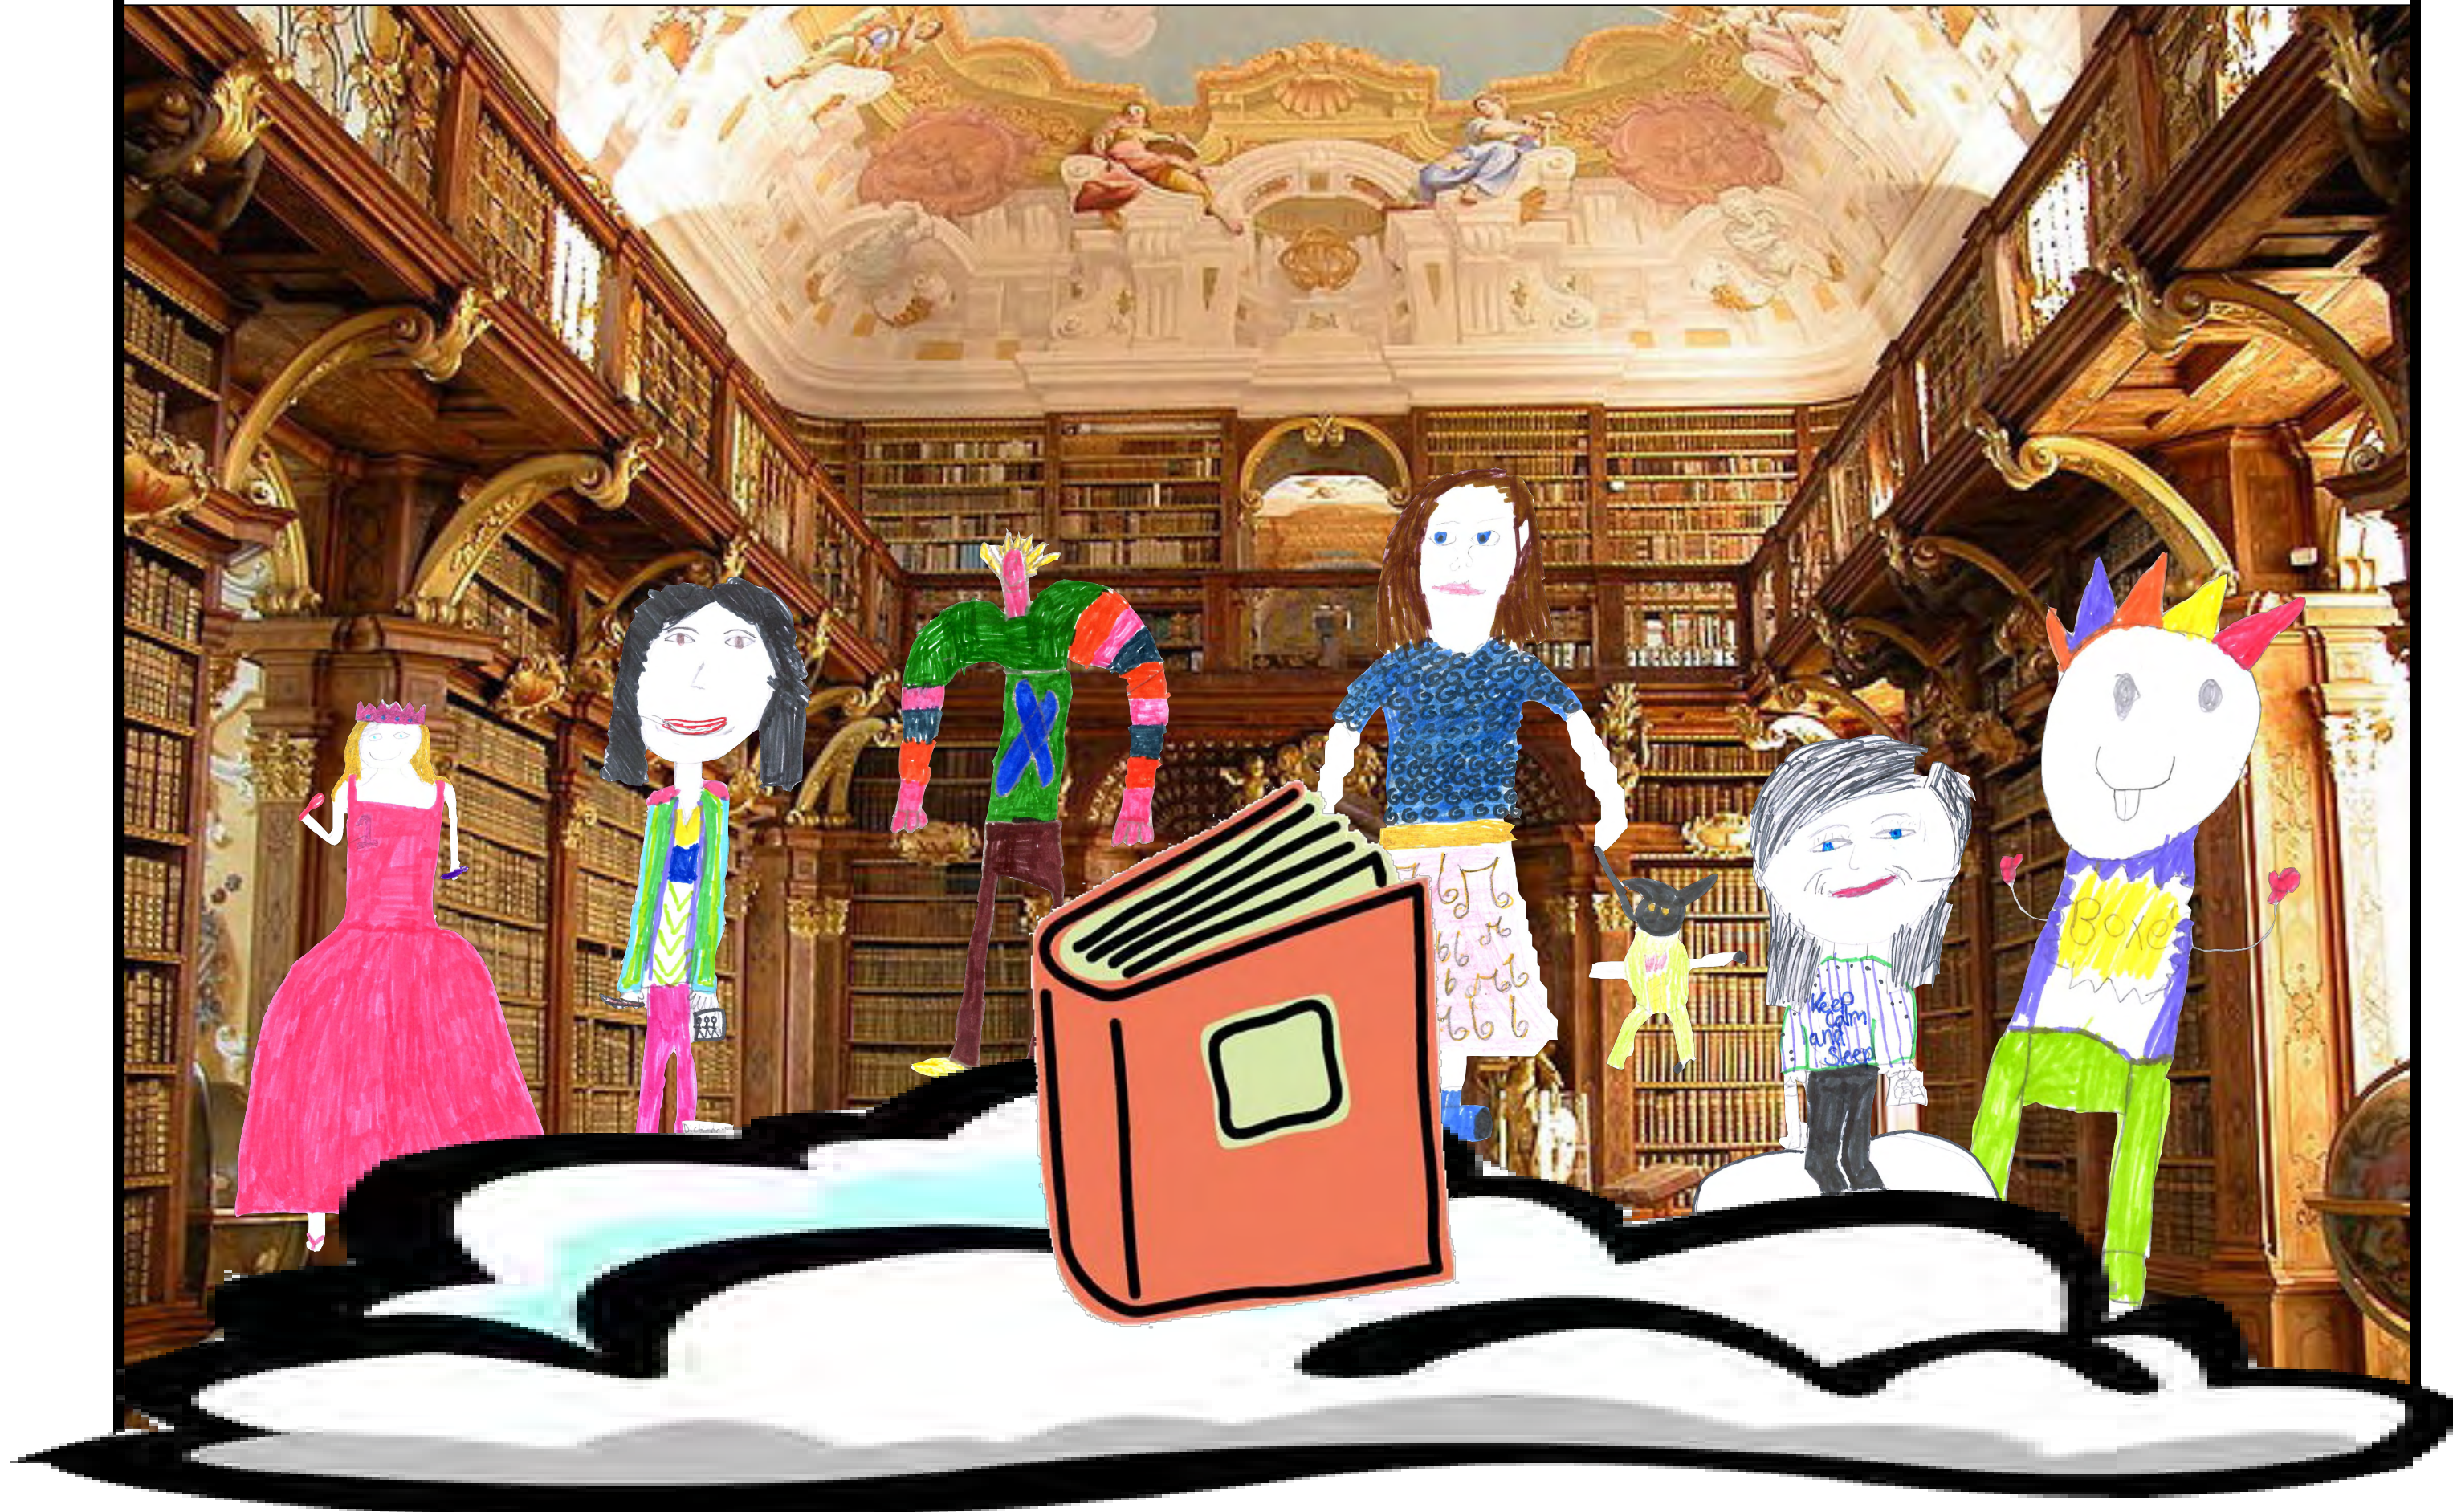

Let's go to the library!

That's a good idea!

I wish I didn't get so easily distracted!

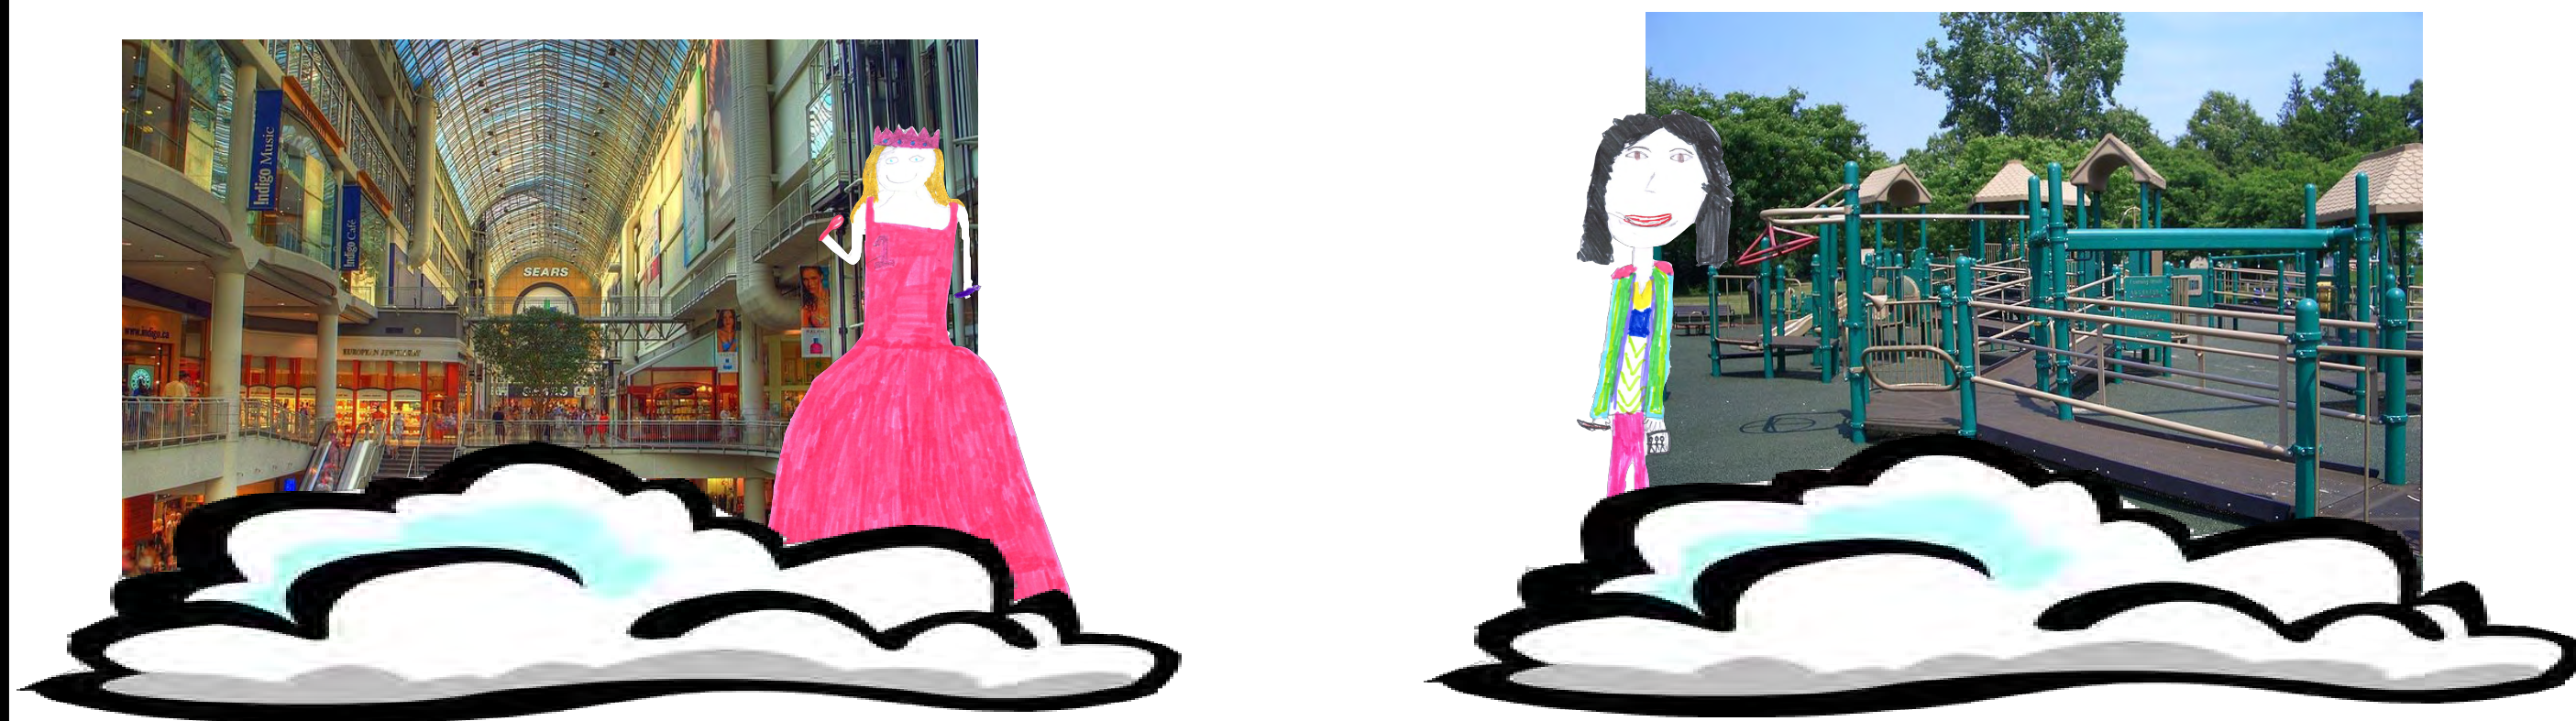

The children calmed down and did their work.

Afterwards the children went off to their own little clouds to relax.

Kids are capable of making good decisions.
